

MSIT 5443 Assignment-1 Report

Mosammat Akter

In this assignment I tried to develop a home page and two other pages for an imaginary IT Company named, CAREIT.

This is the first time I am developing website. So far I could not upload it on my azure account.

However, I have uploaded it on my personal github account.
Here is the link.

<https://github.com/rahimamokter/CAREIT/blob/master/index.html>

Please give me an extension for three more days.

Thank you so much.
